EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald Heckenberg (60,081) on 12/06/07.

The application has been amended as follows:

Claim 7 is replaced with --An exposure apparatus comprising the stage apparatus of claim 6 for positioning at least one of a substrate and an original.-
Claim 8 is replaced with --A device manufacturing method comprising: providing an exposure apparatus according to claim 7, exposing a substrate to a pattern using the exposure apparatus, and developing the exposed substrate to manufacture the device.--

2. The following is an examiner's statement of reasons for allowance:

Applicant's argument, see p. 8 of remarks filed 11/21/07, that the disclosure of Ha et al. does not necessitate a position measuring means because it would be sufficient, for example, to have a predetermined input value for causing the driving cylinders to is persuasive.

Regarding claims 1-8, the prior art fails to teach position measuring means for measuring a position of said plurality of magnetic-flux detection means on the

guided moving member along the length of the sliding member, in combination with the other limitations in the claims.

Regarding claims 9-11, the prior art fails to teach position measuring means for measuring a position of the magnetic flux detecting means on said moving member along the length of the target, in combination with the other limitations in the claims.

Regarding claim 12, the prior art fails to teach measuring a position of the plurality of magnetic flux detecting means along the length of the target, in combination with the other limitations in the claims.

Regarding claim 13, the prior art fails to teach a position measuring unit configured to measure a position of said plurality of magnetic-flux detectors along the length of the target, in combination with the other limitations in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ann T. Hoang, whose telephone number is 571-272-2724. The examiner can normally be reached Monday-Thursday and every other Friday, 8 a.m. to 6 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Sherry, can be reached at 571-272-2084. The
